

Every human heart beats...

Every human heart knows how to love...

Every human heart sometimes hurts and is hungry...

Ours are human hearts

as Nano's was a human heart

as Jesus's was a human heart,

born of and bearing God's love for us and for all the world.

On this day honouring Jesus' Sacred Heart,

so loved by Nano,

we pray that our hearts love as we know how to love,

in practical ways, with each other and those we meet

in our day to day.

May our hearts, which know love, prayerfully hold the hurt and hardship of those near and far who are suffering and struggling.

Amen
